INTERNATIONAL SOS MEDIKA

Jl. Puri Sakti 10
Cipete, South Jakarta
Ph.: (021) 7505973

Emergency: 750-6001

International SOS was organized as a clinic oriented to providing care to the expatriate community. It is affiliated with Asia Emergency Assistance, a regional medical evacuation organization. They have a doctor and ambulance on duty 24 hours a day. As in all Indonesian health care facilities, only Indonesian doctors are allowed to treat patients. SOS, however, has an expatriate consultant physician on the premises most of the time. There is a better chance that this consultant will be involved with your care if the Embassy Medical Unit or Duty Medical Officer calls ahead of your visit.
